Pieve e S.Andrea di Compito - Capannori (LU)  
**MARCH 2024**

15km from Villa Reale, a beautiful rural location (“Il Borgo delle Camellie”) will hosts the more than thirty-year-old exhibition of **Lucca Historic Camellia Exhibition**. A journey of discovery through spectacular gardens, where you can enjoy the flowers and admire the historic architecture and river views of Pieve di Compito, Sant’Andrea di Compito and Visona.

The exhibition follows a walking route and takes around 2 hours. The route takes in the **Camelieta Compitese** (a wonderful garden on the slopes of the mountain featuring around 1,000 specimens of 19th

century camellias), the **Fiore Re-ciso** exhibition (on weekends from 10am until 6pm - last entry at 4pm), the unique **tea plantation** of the Compito area and specialist nurseries selling Camellia plants.

Food, drink and music accompany the experience!

Every day from 10am to 6pm, it is possible to visit Villa Reale di Marlia, where you can discover the enchanting gardens including a series of paths featuring over 50 historic camellia plants. **The collection of camellias** dates from 1808, when the first introduction of the plant to Lucca was documented.

**Elisa Baciocchi Bonaparte** was instrumental in bringing these flowers (originating first from England) to the area, ordering a delivery from Caserta to Marlia, where they were planted in the exquisite English Garden. To complete the experience, it's possible to add the visit of Elisa Baciocchi's empire-style rooms inside

the Royal Villa and the museum of Clock House dedicated to Countess Mimì Pecci Blunt.

*Weekdays of March promo, presenting Cameliato ticket:*  
**€11.00 Park + Museums**
